

AV Cables

Send videos and pictures from your
iPhone 3G, iPhone or iPod to your television

CONTENTS:

- AV Adapter
- AV Cable
- USB Charging Cable

SET-UP iPod/iPhone (Video/Audio Transfer):

1. Connect the AV Adapter to any video compatible iPod/iPhone 30 pin input. (see figure #1)
2. Connect the AV Cables' 3.5mm plug to the 3.5mm input located on the AV Adapter. (see figure #2)
3. Connect the (red,white and yellow) audio/video cables to any TV/Video Display with AV inputs. (see figure #2)
Note: Connect only the (red & white) cables when only audio is desired from a TV or Stereo Receiver.
4. Confirm your TV/Video Display is set to the proper video input.
5. On your iPod/iPhone, go to "settings" and set your device to **(TV OUT)**.

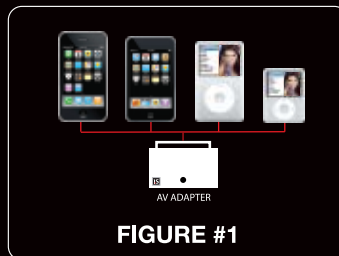

FIGURE #1

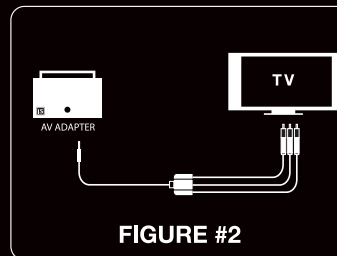

FIGURE #2

SET-UP iPod/non-iPod models (Audio Transfer Only):

1. Connect the 3.5mm jack located on the end of the AV Cable to the headphone input on your iPod, iPhone or any other portable audio device. (see figure #3)
2. Connect the AV Cables (red and white only) to any Stereo Receivers' audio inputs. (see figure #3)
3. Confirm your Stereo Receiver is set to the proper input. For example, AUX, input #1, input #2 or other.

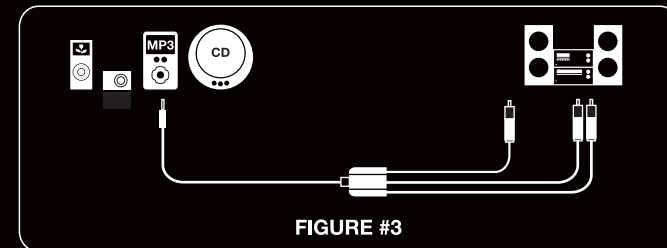

FIGURE #3

iPod/iPhone Charging Feature:

1. Connect the AV Adapter to any iPod/iPhone with a 30 pin connector.
2. Connect the included USB Charging Cable to the AV Adapter.
3. Connect the USB Cable to any powered USB device.
